

## **BioMS-eu annual meeting**

Amsterdam 26.10.2022 05.00 pm to 07.00 pm

Amsterdam UMC

### **Preliminary Agenda:**

- Welcome
  - Michael Khalil (5 min)
- Introductory presentations:
  - Charlotte Teunissen: The Coral initiative (15 min)
  - Jens Kuhle: Biomarkers and analytical methods beyond NfL and Simoa (15 min)
  - Florian Deisenhammer: Diagnostic and prognostic value of CSF kappa Free light chains in MS (15 min)
- Presentation of project proposals previously submitted to the steering committee (max. 10 min for each presentation)
  - Aksel Siva: Research project on MS, NMOSD (including double seronegative NMOSD) and MOGAD (10 min)
  - Florian Deisenhammer: FLC multi-center study (10 min)
  - Ahmed Abdelhak, Hayrettin Tumani: Emerging Biomarkers in Progressive MS (EmBioProMS)
- Discussion on BioMS-eu biomaterial inventory (Virtual Biobank)
- Discussion on implementing a BioMS-eu raw database (REDCap)
  - How to proceed with data obtained from BioMS-eu multi-centre studies for potential subsequent projects?
    - Implementation of a data access committee (DAC): BioMS-eu members can request exiting BioMS-eu data for further projects by submitting a proposal to the steering committee

- BioMS-eu website
- Discussion about possible spring meeting as work shop on a specific topic
  - Results of the workshop should then be published as a review article
- Closing at 07.00 pm
- Social get-together
